NUMBER ONE IN NUMBERS

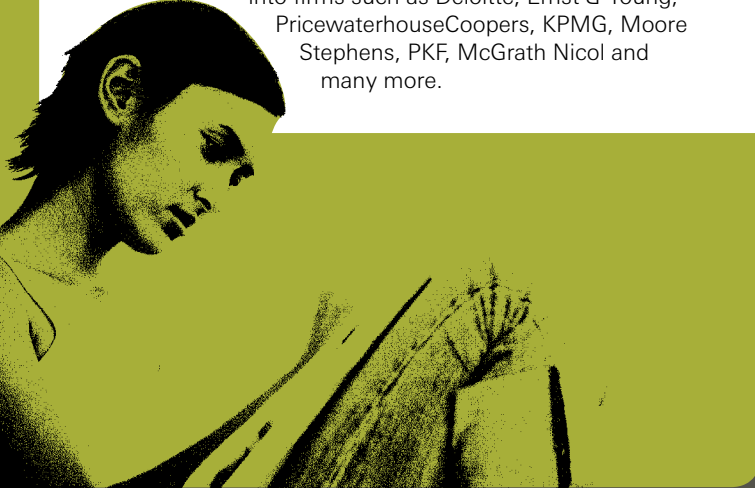

Chartered Accountants Achiever Work Experience

What's the most important thing to have on your resume when looking for a permanent position at the end of your studies? Relevant work experience!

Find quality work experience in leading Chartered Accountant organisations, through the Achiever Work Experience program.

Achiever is unique in that it's open to first year Accounting, Business, Commerce and Finance students. It is also open to students completing a double degree who are completing their first year of accounting subjects.

The Institute's extensive network helps find work experience placements for hundreds of students every year into firms such as Deloitte, Ernst & Young, PricewaterhouseCoopers, KPMG, Moore Stephens, PKF, McGrath Nicol and many more.

'It is the single best thing I could have done as a first year student and without doubt I would highly recommend it to all other first year students. Moreover Deloitte have invited me to return in both winter and summer of 2007 for further vacation work. Once again this would not have been possible without the Achiever program.'

Tim Leach, successful applicant in the 2006 Achiever program, WA.

How to apply

- 1 Visit charteredaccountants.com.au/students and go to the job search page
- 2 Download the official application form
- 3 Submit the completed form online by the closing date.

You must be an Australian citizen or permanent resident to gain Achiever Work Experience.

Applications open Monday, 23 July 2007

Applications close Monday, 27 August 2007

Achiever work experience

- > Is paid work experience from between 2 and 12 weeks during the summer holidays
- > Builds skills that help later in your degree through real-life accounting experience with a future graduate employer
- > Allows you to discover more about the profession and what life as a Chartered Accountant is like
- > Gives you a better understanding of business
- > Is a great addition to your resume
- > Could lead to graduate employment.

Your university Careers Centre has organised this mail-out and has not released your name and address to our organisation. Our organisation does not collect or aggregate data obtained about students from the receipt of returned mail.
