

The Institute of Chartered Accountants in Australia

Australian Auditing Toolkit

A comprehensive tool for conducting audits

The Institute has identified how hard it can be to keep up to date with changing audit requirements.

Based on the Australian Auditing Standards, the Institute has developed the Australian Auditing Toolkit to assist you in conducting audits in line with the necessary requirements.

Toolkit highlights and content:

To supplement the Australian Auditing Manual, the Institute has developed a comprehensive Toolkit with accompanying forms, checklists and programs, in both Microsoft Word and Excel formats, to assist in conducting an audit in accordance with Australian Auditing Standards.

This adaptable collection of tools can be used to implement high quality and cost effective audits to help you:

- > Plan and perform risk assessment procedures
- > Understand your clients and respond to risk
- > Audit documentation, evaluating audit evidence and reporting
- > Educate and train professional practitioners and students.

Who should purchase this Product?

This toolkit is ideal for practitioners in small to medium firms.

How will you receive the toolkit?

Due to the size of the toolkit, once purchased you will receive an email from the Institute with a link to download the toolkit. If you experience any troubleshooting, please contact the Institute on 1300 137 322.
